Alpharma

American Society of Pain Educators

Covidian

Abbott

Pfizer

HDMA (wholesalers)

National Pain Foundation

American Cancer Society

Pain Care Coalition (Medicine)

American Pain Society

APhA

Pain & Policy Studies

An outline is being drafted that will identify the risks to be addressed, (i.e. opioid tolerance, dependency, safe storage, etc.), and to identify a single system to address the needs for a uniform REMS. The group has agreed to meet again in person to review a draft on December 1st. I will set up a quick call as I think we can do a lot to help frame the outline and to decide how much detail we want to give the group on suggestions for a single system.
